

» **Saturno 2 . 2 - machine for multiple layer cutting** **Automatic cutting - double head for insoles / counterforts / toe caps**

The solid structure and the reliable movement of 2 heads with the cutting speed allow to get a high productivity and quality.

Production: 2000 pairs/hour.

The Cam system *Saturno 2.2* has been create exclusively to cut more sheets contemporarily, from a minimum of 4 at a maximum of 10; it allows to work with a lot of types of materials, also synthetics by an automatic anti-welding system with the immediate separation of pieces.

The system to low consumption, through a particular structure of the cutting plane, allows an energetic saving up to 90%.

Through a direct connection is possible to draw from an other posting and to salve the works for use them subsequently, this allows simple and flexible operations of management.

TECHNICAL FEATURES

Production 1500 /2000 pairs /h

Voltage 400 Volt 50-60 Hz

Power 3,5 kW

Dimensions 3,10 x 2,40 x h2,00

Weight 2000 kg
